

New Strength and Energy For Weak Nervous People

Elvita Pills Enrich the Blood, Strengthen the Nerves, Build Up Physical Power, Give Vigor and Nervous Power to Nervous, Tired, Over-Dependent People. Elvita Pills have stood the test for over 30 years. Originated 1891. Thousands of doctors praise them for their ability to build up nervous condition, general debility, nervous prostration, nervous weakness, nervous exhaustion, mental depression and nervousness, caused by the influence of over-exhaustion, or from over-exhaustion of any kind. Write today for this valuable medicine, send 10 cents to pay postage and we will send by mail a sealed package sufficient for one week's treatment. Elvita Pills, for inflammation of the prostate gland and weakness of the bladder and kidneys, 51 per bottle. ELVITA DRUG CO., 3 Tremont Row, Boston, Mass.

WILLIMANTIC KACEYS TAKE TWO STRINGS FROM Y. M. C. A.

Willimantic, Conn., Mar. 10.—On the Y. M. C. A. alleys, Thursday night, the K. of C. won the best two out of three games from the Y. M. C. A. team. Noel called high single and high three honors went to Murray. Albert French broke the Y. alley record for high single and high three, rolling 145 for high single and 412 for total, replacing the record held by Edgar Redman of 137 for single and Earl Lally, 382 for total. Score:

K. of C.	Y. M. C. A.

KAUFF LEFT TO JOIN GIANTS AT CAMP

Chicago, Mar. 10.—"Benny" Kauff, of the New York National league baseball team, departed from Chicago tonight to rejoin his team in spring training at San Antonio after an interview with Federal Judge Landis, commissioner of baseball, here today. Judge Landis refused to reveal the nature of his discussion with Kauff, but it was declared in baseball circles that the interview was in the nature of obtaining any information Kauff may have had regarding charges of gambling during the Giants-Cubs series of 1919 in Chicago.

Lynch Won Decision

Cleveland, O., Mar. 10.—Joe Lynch, heavyweight champion, tonight won the newspaper decision over Joe Burman, Chicago, in a ten-round bout here. Lynch took five rounds, Burman three and two were even.

Triple Tie in Trolley Bowling League

As a result of the Trolley league matches rolled Thursday night, a triple tie for first honors developed between Taftville, Plainfield and Jewett, which most likely will be rolled off between these clubs in the near future.

Danielson took two games from Moosup on the Casino alleys and the Palace won two games from Taftville on the latter's alleys which brought about a tie.

In one of the final games of the Trolley Bowling league rolled Thursday night, the Aetna five broke three league records in their match with Ballie on the Aetna alleys. Budnik of the Aetna five rolled a 310, setting a new record for a single game. His lowest score was 133 while his highest was 189, with the score of 187 being given him a total of 489 points, breaking the record held by Raymond of Taftville.

In the second string the Aetna rolled a total pinfall of 561 pinfall, setting another record, which was formerly held by Moosup. The third record broken was high team total of 1867 points of total score.

Plainfield took two games from Jewett City on the former's alleys. High single and high three honors went to Bailey. Score:

Plainfield-2	Jewett City-1
Count.....129 107 102-338	
Shatham.....94 143 103-340

CONN. MILLS DOWNS CO. G. IN CLOSE AND FAST GAME

(Special to The Bulletin.)—Danielson, Conn., Mar. 10.—The Connecticut Mills five defeated 38 to 34, Co. G, formerly the Wyandokas of Hartford, in one of the fastest basketball games of the season in the Town hall, Thursday night.

The team was late in arriving but the big crowd on hand was rewarded by a fast game which was a game very much to their liking.

The first half ended with the teams on an even basis, score being 16 to 16. Connecticut Mills succeeded in tying the score almost at the bell rang. In the second half Conn. Mills was the aggressor and it appeared to most of the fans as if the home boys were running the visitors off their feet.

The Co. G men were so winded about mid-way in the latter half that they were forced to invoke the two minute rule for rest.

Conn. Mills was strengthened by Jerry Sullivan, burly center for the Newport Naval Reserves. He did a lot of good work in breaking up plays and passing, but the star in the passing line was Blair.

Reddy and Higgins also did great work for the winners. Elliott's aggressiveness had a telling effect in the final score.

For the visitors Stillwell, Fay and Madden did splendid work. Lineup:

Conn. Mills	Co. G
Elliott.....Right Forward	Stillwell
Reddy.....Left Forward	McCabe
Sullivan.....Center	Fay
Higgins.....Left Guard	Quish
Blair.....Right Guard	Madden

Field goals: Reddy 7, Higgins 7, Stillwell 3, Quish 3, Madden 2, Elliott 2, Sullivan 1, Blair 1, McCabe 1.

GOCHRAN NOW LEADS

Detroit, Mar. 10.—Welker Gochran took two in a game tonight to run up his 3,000 points in the eighth block of his 3,000 point billiard match with Horreman, European 19.2 champion. In the first inning Gochran scored 68. Horreman then made one point and the American ended the block with an unfinished run of 281.

The Dutch put Gochran in the lead by 45.7 points.

FINANCIAL AND COMMERCIAL

MARKET WAS ACTIVE

New York, Mar. 10.—Business on the stock exchange today was appreciably larger and much more diversified than at any recent period, but the quicker pace was attended by further substantial depression.

Selling for both accounts of the railway shares was the overshadowing feature. Declines of 1 to 2 points embraced the most every class of transportation. In some instances, notably that of Pennsylvania, lowest prices for a number of years were registered.

The break in rail was naturally attributed to the decision of the various systems of the country to effect drastic reductions in wages and salaries from the war-time basis in conformity with existing economic conditions and a widespread policy of retrenchment.

Other incidents of the session, such as the February report of the U. S. Steel Corporation, revealing another large decrease of unfilled orders, were among the factors which played into the hands of the aggressive short interests.

Steele, railway equipments, shipbuilding, copper, and oil, the European issues excepted, were involved in the general reaction of declines in the afternoon. Liquidation was at its height in the last hour, the busiest period of the day, pressure against U. S. Steel and Pennsylvania was particularly effective. Those issues closing at net losses of 3 and 1 1/2 points respectively. Sales amounted to 800,000 shares.

Although money on call and time was unchanged as to rates, supplies for both forms of accommodations were smaller. All the principal foreign exchange rates were higher, but not to a material extent. Scandinavian remittances showing especial strength.

In the bond market lower prices ruled for domestic and foreign issues. Liberty 3 1/2's at 90.12 made a new low record for the year. Total sales (par value) aggregated \$9,750,000.

BRONCO AND COBURN STOLE LAP ON FIELD

New York, Mar. 10.—Shortly after 10 o'clock tonight Bronco and Coburn, who won the December race, stole a lap on the field and brought themselves even with the Rutt-Lorenz and the Big Von Kemper.

At 10 o'clock the leaders had covered 12.7 miles and had the record for the 24th hour in 1,386 miles and 2 laps.

Four teams were tied for second place, one lap behind the leaders. The other four teams were trailing.

NEW YORK BOWLERS MADE SUCCESSFUL ATTACK ON PINS

Buffalo, N. Y., Mar. 10.—Greater New York bowlers launched a successful attack on the pins in the five-man tournament tonight. The Greater New York team won the first round.

While many of the pitchers now in training are burning them over in the well known "mid-season form" Alec Ferguson, former Bridgeport, now with the New York Yankees, is no exception.

With the announcement that Carpenter is not only consented to an exchange of days to Tex Rickard in which he may name the site where the Dempsey-Carpenter bout will take place and the added assurance that the Frenchman will accept the offer, the promoter appear to have the match well in hand.

Eager for Bout

Battling Kuper is anxiously awaiting the time when Nate Sledge, the New England welterweight champion, or Edie Shavlin of Roxbury will accept his challenge. The Quaker City welter is training hard for a bout with either of the two New Englanders.

Murphy's New Charge

Benny Murphy of Boston has taken Chick Hayes, the Indianapolis featherweight, under his wing and is anxious to send him against Sammy Sledge, Charlie Beecher, Andy Chaney, Billy DeLoe or any of the others of his weight.

Bout With Josephs

Al Shubert probably will be seen in action in Boston in a bout of March 13. Whether he boxes or not has another scrap coming with Bobby Josephs whom he is to meet on the night of March 31 at the Arena A. A. of New Bedford.

Brady to Box Brown

Ralph Brady, the Squawke featherweight, has been booked to trade punches with Harry Kid Brown in an eight rounder at the special show of the National Athletic Club at Philadelphia on St. Patrick's Day night.

WHEN AN ATOM IS BORN

Regarded as Important as Advent of a World.

The birth of an atom is just as important as the birth of a world. In fact, it is more so, for everything in the universe is composed of atoms, even the worlds themselves. Not long ago, atoms were thought to be immutable and unchanging, but the amazing truth has just been disclosed that new atoms are born every minute, just as atoms die.

Already certain kinds of atoms can be produced in the laboratory, and such a business venture is being developed. If gold and silver could be created in the same way. This is not an idle dream, as might be thought, for already it has been proved that atoms are composed of the same kind of material—positively electrified particles and minute negative electric charges. All that remains to be done is to put these quantities together in the proper amounts, and atoms will be produced synthetically, just as chemists now put the proper atoms together and produce—through oftentimes under uncommercial conditions—synthetic rubber, silk, steel, artificial dyes and the many other miracles of the laboratory.

To understand how certain atoms have already been produced in the laboratory, it is necessary to remember that there are about ninety different kinds of atoms, corresponding to the elements of which all substances are made, and that all atoms contain equal amounts of positive and negative electricity. Just as the elements are made, and are held together by the force of gravitation, so do atoms consist of positive and negative electricity, held together by the force of electrical attraction.

UNITED STATES TRADE WITH THE EUROPEAN WAR AREA

Trade of the United States with the war area of Europe, as of 1920 actually exceeded in stated value that of the year preceding the war. The aggregate value, says a statement by the National City Bank of New York, of our trade with Germany, Russia, Finland, Belgium, Austria, Bulgaria, Hungary, Rumania, Greece, Turkey, Poland, Czechoslovakia, and Jugoslavia in the calendar year 1920 was over \$1,000,000,000 against only three-quarters of a billion dollars in the year preceding the war.

More closely accurate, \$1,035,000,000 in the calendar year 1920 against \$775,000,000 in the year preceding the war. This figure of 1920 necessarily includes an estimate for the closing

Condition the Breeders—Get Big Hatches

Eggs that are highly fertile and hatch chicks that are strong and grow, come only from strong, healthy, vigorous breeding flocks. It's time now to get your birds in perfect breeding condition by giving them

Pratts Poultry Regulator

For nearly fifty years America's greatest poultry tonic and conditioner. When leading successful breeders like Mr. John S. Martin and a host of others—use and endorse Pratt's Poultry Regulator, you may be sure it does its work well. It does make hens lay—it does improve fertility and hatchability. Try it this season—start now. And—

month of the year, for which official figures are not available.

The imports from the dozen countries in question were in 1920 \$233,000,000 against \$289,000,000 in 1913, and the exports to \$300,000,000 in 1920 against \$477,000,000 in 1913. The imports from the countries in question are less in 1920 than in 1913 as a result of the fact that in most cases they have little which they can spare for exportation, while the exports to them were last year nearly twice as much as in 1913 as a result of the fact that they are at this time greatly in need of foodstuffs and manufacturing materials.

Of this bill dollars worth of trade with the war area in 1920 as against three-quarters of a billion dollars in 1913, the most striking figures are: Imports from Germany \$20,000,000, and exports to Germany \$28,000,000; imports from Belgium \$48,000,000, and exports to Belgium \$48,000,000; imports from Russia \$12,000,000, and exports to Russia \$12,000,000; imports from Rumania \$1,000,000, and exports to Rumania \$1,000,000; imports from Poland \$1,000,000, and exports to Poland \$1,000,000; imports from Czechoslovakia \$1,000,000, and exports to Czechoslovakia \$1,000,000; imports from Hungary \$1,000,000, and exports to Hungary \$1,000,000; imports from Bulgaria \$1,000,000, and exports to Bulgaria \$1,000,000; imports from Greece \$1,000,000, and exports to Greece \$1,000,000; imports from Turkey \$1,000,000, and exports to Turkey \$1,000,000; imports from Yugoslavia \$1,000,000, and exports to Yugoslavia \$1,000,000; imports from Finland \$1,000,000, and exports to Finland \$1,000,000; imports from Austria \$1,000,000, and exports to Austria \$1,000,000; imports from Belgium \$1,000,000, and exports to Belgium \$1,000,000; imports from Germany \$1,000,000, and exports to Germany \$1,000,000; imports from Russia \$1,000,000, and exports to Russia \$1,000,000; imports from Rumania \$1,000,000, and exports to Rumania \$1,000,000; imports from Poland \$1,000,000, and exports to Poland \$1,000,000; imports from Czechoslovakia \$1,000,000, and exports to Czechoslovakia \$1,000,000; imports from Hungary \$1,000,000, and exports to Hungary \$1,000,000; imports from Bulgaria \$1,000,000, and exports to Bulgaria \$1,000,000; imports from Greece \$1,000,000, and exports to Greece \$1,000,000; imports from Turkey \$1,000,000, and exports to Turkey \$1,000,000; imports from Yugoslavia \$1,000,000, and exports to Yugoslavia \$1,000,000; imports from Finland \$1,000,000, and exports to Finland \$1,000,000; imports from Austria \$1,000,000, and exports to Austria \$1,000,000; imports from Belgium \$1,000,000, and exports to Belgium \$1,000,000; imports from Germany \$1,000,000, and exports to Germany \$1,000,000; imports from Russia \$1,000,000, and exports to Russia \$1,000,000; imports from Rumania \$1,000,000, and exports to Rumania \$1,000,000; imports from Poland \$1,000,000, and exports to Poland \$1,000,000; imports from Czechoslovakia \$1,000,000, and exports to Czechoslovakia \$1,000,000; imports from Hungary \$1,000,000, and exports to Hungary \$1,000,000; imports from Bulgaria \$1,000,000, and exports to Bulgaria \$1,000,000; imports from Greece \$1,000,000, and exports to Greece \$1,000,000; imports from Turkey \$1,000,000, and exports to Turkey \$1,000,000; imports from Yugoslavia \$1,000,000, and exports to Yugoslavia \$1,000,000; imports from Finland \$1,000,000, and exports to Finland \$1,000,000; imports from Austria \$1,000,000, and exports to Austria \$1,000,000; imports from Belgium \$1,000,000, and exports to Belgium \$1,000,000; imports from Germany \$1,000,000, and exports to Germany \$1,000,000; imports from Russia \$1,000,000, and exports to Russia \$1,000,000; imports from Rumania \$1,000,000, and exports to Rumania \$1,000,000; imports from Poland \$1,000,000, and exports to Poland \$1,000,000; imports from Czechoslovakia \$1,000,000, and exports to Czechoslovakia \$1,000,000; imports from Hungary \$1,000,000, and exports to Hungary \$1,000,000; imports from Bulgaria \$1,000,000, and exports to Bulgaria \$1,000,000; imports from Greece \$1,
